

How the Stimulus Package Effects You

Pulsafeeder would like to offer you clarification on how our products comply with the Buy American requirement in Section 1605 of the American Recovery and Reinvestment Act of 2009 (ARRA 09). This act requires that none of the funds made available by the act may be used for a project for construction, alteration, maintenance, or repair of a public building or public work unless all of the iron, steel, and manufactured goods used in the project are “produced in the United States”. Reference information can be obtained from the government’s website, www.recovery.gov, with specific details available from the link at the bottom of this page.

Pulsafeeder’s products fully comply with Section 1605 of the ARRA 09. All of these products are designed, assembled and tested in the USA at our facilities located in Rochester NY or Punta Gorda, FL. The accessory products offered by Pulsafeeder vary in compliance and have not been categorized below; please call our Technical Services department for individual accessory component compliance.

Pulsafeeder Products

Metering and Process Pumps (Hydraulic, Mechanical, Peristaltic & Solenoid)

- Pulsa Series
- Pulsar Series
- Shadow
- Series M
- OMNI Series with controls
- PULSAtron
- CHEM-TECH
- MEC-O-MATIC
